EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Torrence on 2/13/06.

The application has been amended as follows:

In claim 1, last line: delete "thereof." and substitute --facing said case.--;

Delete claims 13-15; and

In claim 16, last line: delete "thereof." and substitute --facing said case.--.

The following is an examiner's statement of reasons for allowance: the independent claims as amended which recite that "the flexible part and the friction part are stepped to each other at a connection outer surface facing said face" now distinguish over the Orie reference as the step on the brake of the Orie device does not face the case, and there is no motivation in the prior art which otherwise shows such a step facing the case, specifically the newly cited Norcross, Hershey, Habuka, Fuths, and Chombard references, to modify the Orie device to have such a step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T. deVore whose telephone number is (571) 272-4884. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on (571) 272-4835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
